

## Product Safety Policy

### **1. Objective:**

At Avingtrans, we prioritize the safety and well-being of our customers above all else. Our product safety policy aims to ensure that all products manufactured, distributed, or sold by our company adhere to the highest safety standards, meeting or exceeding regulatory requirements worldwide.

### **2. Compliance:**

We commit to complying with all relevant local, national, and international safety laws, regulations, and standards applicable to our products. Our products will undergo rigorous testing and evaluation to ensure they meet or surpass these requirements.

### **3. Design and Development:**

Our products will be designed and developed with safety as a primary consideration. We will integrate safety features and considerations at every stage of the product life cycle, from concept to design, production, and distribution.

### **4. Quality Assurance:**

We will implement robust quality control measures to monitor and maintain the safety and integrity of our products throughout the manufacturing process. Regular inspections, testing, and audits will be conducted to identify and address any potential safety concerns promptly.

### **5. Supplier and Partner Collaboration:**

We will collaborate closely with our suppliers and partners to ensure that all materials, components, and processes used in our products meet stringent safety standards. We will encourage transparency and accountability in our supply chain regarding safety practices.

### **6. Consumer Education and Communication:**

We are committed to providing clear and comprehensive safety information to consumers. This includes user manuals, warning labels, and any necessary instructions for safe use and maintenance of our products.

### **7. Continuous Improvement:**

We recognize that ensuring product safety is an ongoing commitment. We will continuously review and improve our safety processes, incorporating feedback, emerging technologies, and industry best practices to enhance the safety of our products.

### **8. Incident Reporting and Response:**

In the event of any safety-related incidents or concerns reported by customers or identified through internal processes, we will promptly investigate, address, and, if necessary, recall or rectify affected products to prevent any harm to consumers.

### **9. Training and Empowerment:**

We will provide regular training to our employees involved in the design, manufacturing, distribution, and customer service aspects to ensure they understand and implement our safety policies effectively.

### **10. Accountability:**

All employees, suppliers, and partners are responsible for upholding and promoting our product safety standards. Any deviation from these standards will be addressed seriously and appropriately.

### **Conclusion:**

Avingtrans is dedicated to delivering safe, reliable, and high-quality products to our customers. Our commitment to product safety is unwavering, and we will continuously strive to improve and innovate while ensuring the safety and satisfaction of our consumers.

This policy will be communicated to all employees and stakeholders, and its effectiveness will be regularly reviewed and updated as necessary to reflect changes in regulatory requirements and industry best practices.
